

Table 5.2 run with Black respondents only

Alternative Table 5.2: Predicted Coefficients of Independent Variables Predicting First-Year Law School Grades at a Cross-Section of Law Schools

Independent Variable	Standardized Coefficient	t-statistic	p-value
ZLSAT	0.41	6.66	<0.0001
ZUGPA	0.25	4.09	<0.0001
Male	0.04	0.66	0.51
Total observations for model: 222			
Adjusted R ² for model: 0.21
